

Boundary Garlic List of Garlics for Sale - updated September 1, 2018

This year we are selling our usual assortment of garlics and the hardneck garlics we grew up from 2015 bulbils.

Porcelain and Purple Stripe garlics take from three to five years to reach full size from bulbils. The 2015's have had three seasons and many of them need another year or two to reach their full potential. We are selling **small 2015 hardneck bulbils at \$15 per pound**. There are about 15 bulbils in the pound. **Medium 2015's are \$3.50 each**.

There are effectively **no limits**. If you wish to buy more than the limit shown in the cart contact the office to **negotiate a bulk price**. After we have filled the first batch of orders we will be selling medium sized, small and seconds by the pound.

PRICE of Softnecks, Weakly Bolting Hardnecks and other Collectors Garlics

Many garlics we categorize as "collectors garlics". These are a challenge for us to grow consistently, year in and year out, in our location. Many are naturally small and some will grow bigger bulbs in more favourable environments. If the bulbs are smaller than we like to sell as full size we will add bonus bulbs to make up the value.

11 or more bulbs of a cultivar	\$5.00 each
